COMPANY PROFILE

Since the inception of our parent company PERFECT GROUP OF COMPANIES in 1964 and TURBO GROUP OF COMPANIES in the year 1980 it has been our responsibility to provide our best services to our esteemed customers with quality products at very reasonable and competitive price. During the span of these 53 years we have achieved public recognition both nationally and internationally for the manufacturing of excellent quality products like HAND TOOLS, SCAFFOLDINGS & AUTO PARTS FOR the European, North American and South American Market.

We have work force of approximately 1500 people working in our units. Quality adherence is a major input at PERFECT FORGINGS. While high grade steel is used in all types of forgings, other quality supports like EDMs and profile testing equipment ensure a high degree of precision.

Experienced experts guarantee thorough hardening, annealing and dimensionally-accurate machining along with proper finish given to the product. In this way the requirements of the relevant ISO standards are achieved.

JHAVERI HAND TOOLS are made to set new standards in precision and reliability.
